Summary

Data Analyst with a strong foundation in SQL, Python, Excel, and Power BI. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

Skills

Programming & Querying: SQL, Python

Data Visualization Tools: MS Excel, Power BI, Tableau

Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), Insight Generation, Descriptive Statistics

Experience

ML,PowerBI And Tableau Intern

July 2025 – August 2025

Upflairs Pvt. Ltd.

Tools Used: Excel, tableau, Power BI

- **Processed and standardized 100,000+ records** from multi-region datasets using Python and BI tools, ensuring high data quality for analytics and machine learning applications.
- Enhanced data cleaning, transformation, and exploratory data analysis (EDA), **to identify trends and prepare structured datasets for predictive modeling and business insights.**
- Developed and maintained interactive dashboards in Power BI and Tableau using DAX, calculated fields, and data modeling to visualize revenue trends, customer segmentation, and performance metrics.
- Created efficient data models and reporting workflows, reducing manual effort and improving reporting efficiency across departments.

Projects

Customer Churn Analysis | *Python*

March 2025 – April 2025

- **Examined behavior of 7,043 telecom customers** to identify churn patterns based on tenure, contract type, and monthly charges.
- Engineered new features including contract type buckets and tenure bands to improve segmentation and insights.
- Generated 11 visualizations (histograms, box plots, heatmaps) to highlight churn-prone segments.
- Revealed that 38% of churned users were on monthly contracts with less than 3-month tenure—suggested early engagement strategies.

Sales Dashboard for Regional Performance | *SQL, Power BI*

February 2025 – March 2025

- Queried and joined 3 sales-related tables covering over 25,000 rows across 12 months and 5 regions using optimized SQL joins to create consistent, analysis-ready datasets.
- Spearheaded the development of an interactive sales dashboard in Power BI, automating data refreshes and reporting across 5 regions for 15 stakeholders, saving the sales team 4 hours weekly.
- Improved multipage dashboards with slicers and filters, helping stakeholders drill down by region, product category, and time.
- Detected a 14% sales drop post-festival in the South region. Later, the insight was used for a marketing recovery plan.

Awards & Certifications

- **Deloitte Data Analysis Certificate –2025 :** Completed 8 practical case studies involving SQL, data cleaning, dashboards, and presentations.
- **Deloitte Cyber Job Simulation – 2025:** Completed Deloitte Cybersecurity Job Simulation, gaining hands-on experience in identifying security risks, analyzing cyber threats, and applying industry-standard practices for incident response and risk mitigation.
- **IBM Data Analyst Professional Certificate –(Coursera) 2026:** Completed IBM Data Analyst Professional Certificate, developing skills in SQL, Python, Excel, and data visualization (Tableau/Power BI) for data cleaning, analysis, and dashboard creation.

Education

B.Tech - AI And Data Science
Bikaner Technical University

Graduated: 2027
CGPA: 8.44 / 10
